

3. Project Design Phase

System Architecture

User

Flask Web Interface

Flask Backend

Trained Machine Learning Model (.pkl)

Predicted Human Development Index

Modules

Module 1

Dataset Collection

Module 2

Data Preprocessing

Module 3

Data Visualization

Module 4

Feature Selection

Module 5

Model Training

Module 6

Model Evaluation

Module 7

Model Saving

Module 8

Flask Deployment

Input

- * Life Expectancy
- * Mean Years of Schooling
- * Gross National Income

Output

Predicted Human Development Index

Technologies Used

- * Python
- * Flask
- * HTML
- * CSS
- * Pandas
- * NumPy
- * Scikit-learn
- * Pickle

Advantages

- * Accurate prediction
- * Easy deployment
- * Simple interface
- * Fast execution
